

MATHS CHALLENGE 5

TASK	Telling the time
REWARD	Sharpener

Telling the time

Dear parents,

Your child is now working on their next maths target of **telling the time**. Please support them by practising

*o'clock (? :00)

*half past (? :30)

*quarter past (? :15)

*quarter to (? :45)

times on both a digital and an analogue (clock face) clock.

You can help by showing them a time and asking 'what time is it?' Or giving them a clock to make the time on. You could also ask them to convert times from analogue to digital and vice versa.

When your child has met this target they will collect their next reward! Thank you for your support.
